Ernesto Neto

Rio de Janeiro, Brasil, 1964

Ernesto Neto produz esculturas e grandes instalações imersivas, utilizando técnicas artesanais como o crochê para compor estruturas flexíveis e interativas que ativam os nossos cinco sentidos, com a incorporação de elementos botânicos, ervas e especiarias. O seu procedimento erige membranas e peles, redes e invólucros que usam a gravidade e o equilíbrio como recursos de composição. Seus trabalhos mantêm sempre uma relação com a natureza, seja por meio de suas fisionomias biomórficas, seja no caráter interligado dos elementos que compõem seus espaços. Os ambientes plurissensoriais de Ernesto Neto são percorridos e habitados, formando locais de encontro, troca e reflexão. O público não é pressuposto como um grupo de observadores, mas acolhido como um coletivo de presenças e corpos ativos nas instalações.

SAIBA MAIS

Ernesto Neto produces sculptures and large-scale immersive installations, employing artisanal techniques such as crochet to compose flexible, interactive structures that activate our five senses, with the incorporation of botanical elements, spices and herbs. His procedure erects membranes and skins, nets and containers that use gravity and balance as compositional resources. His works always maintain a close relationship to nature, whether in the biomorphic physiognomy of his structures or the interconnected character of the elements that compose his spaces. Ernesto Neto's multisensory environments are walked through and inhabited, forming meeting places for exchange and reflection. The public is not presupposed as a group of observers but received as a collective of active bodies and presences in the installations.
