

RAW!

Luiza Brasil

RAW! emerges as an artistic manifesto that transcends the barriers of the conventional, defies the linearity of time and space, and praises the wealth of the heterogeneous. Under the aegis of Fortes D'Aloia & Gabriel and HOA, this visionary show aims to be a field of experimentation where different generations of artists converge in intergenerational and interdisciplinary dialogue, sewing new seams toward the construction of contemporary art and the importance of innovation for our understanding of the future in the now.

Filled with vibrant, pulsating energy, *RAW!* reveals itself as a complex and ambitious living ecosystem of artistic expression. The fusion of approaches, languages, and media leads to unpretentiousness and rigor inhabiting the same territory. From the deconstruction of video to the materiality of sculpture, the exhibition subverts pre-established categories and encourages viewers to exercise their sense of perception.

In *RAW!*, everything is a starting point for a reflective journey in which the gaze becomes a bridge between past and future.

Enter *RAW!* and unveil a universe where the ephemeral is tangible, the abstract materializes and the unknown makes itself seen. This experience is a true call to a journey of discovery, existence, and connection, where artistic expression is consecrated as a political act as well as an act of love in the midst of the reveries of the contemporary world.

Redefine concepts, revolutionize your inner self and expand your consciousness!
